morphemepiece_lookup	<i>Load a Morphemepiece Lookup</i>
----------------------	------------------------------------

Description

A morphemepiece lookup is a named character vector. The names of the vector are the words, and the values are the space-separated morpheme breakdowns of those words.

Usage

```
morphemepiece_lookup()
```

Value

A named character vector.

Examples

```
head(morphemepiece_lookup())
```

morphemepiece_vocab	<i>Load a Morphemepiece Vocabulary</i>
---------------------	--

Description

A morphemepiece vocabulary is a named integer vector with class "morphemepiece_vocabulary". The names of the vector are the morphemes, and the values are the integer identifiers of those tokens. The vocabulary is 0-indexed for compatibility with Python implementations.

Usage

```
morphemepiece_vocab()
```

Value

A morphemepiece_vocabulary.

Examples

```
head(morphemepiece_vocab())
```
